S. WALCOTT, Esq.,
 9, Park Street, Westminster, London.

1ST. THE SHIP AND ITS
ACCOMMODATIONS.

The "Storm Cloud" is well adapted to carrying emigrants - The fittings however were very inferior, scarcely a day passed without something breaking down

2ND. OFFICERS OF THE SHIP

Their conduct and general behaviour towards the Emigrants.

Satisfactory

3RD. PROVISIONS & WATER.

Whether ample and good.

Both Ample & good

4TH. MEDICAL COMFORTS.

Whether ample and good.

The quantities of wine were $\frac{3}{8}$ short owing to the bottles holding 5 pills instead of 8, as specified in the Charter Party - no inconvenience however was felt - the voyage having been made in 94 days. The quality was good

5TH. MEDICINES.

Whether ample and good.

Both Ample & good

6TH. SICKNESS.

At what period of the voyage, and in what latitude did it most prevail, and what was the principal disease? Did it prevail more in one part of the Vessel than another?

No sickness

7TH. EMIGRANTS.

What was their general conduct, especially that of the single females? In cases of serious misconduct, state names and particulars.

The general conduct of the emigrants was good, & the single females behaved themselves remarkably well

8TH. REGULATIONS.

How observed? What breaches, if any, reported for punishment in the Colony?

The Regulations were fully observed
no breaches

9TH. SCHOOL.

Whether regularly attended.
Numbers.
What results?

The school was regularly attended by about 20 pupils, who made fair progress. I regret to state that there ^{was} very little desire shown (by the adult portion of the emigrants) for improvement.

10TH. GENERAL STATE OF HEALTH OF EMIGRANTS ON ARRIVAL.

All in excellent health -
not one case of sickness on arrival

11TH. EMPLOYMENT.

What prospect for Emigrants.

A great demand for good female household servants at wages from £20 to £25 per an^m.
Agricultural Labourers readily find employment at fair wages -
Miners in demand -

12TH. GENERAL REMARKS AND SUGGESTIONS, IF ANY.

The Oven very inferior to those supplied at Birkenhead.
The Patent Water Casks all got out of order, I think there is nothing like a simple iron shute for those on deck for 'ad, indeed I had to remove all the valves &c &c - from them before I had been 10 days out -
Green's Patent Hulls is of so superior a quality to all others I have had in use that I recommend its exclusive employment on board emigrant ships - I handed

a sample of it - to Mr. Duncan. He tested
it, examined it - under the microscope &c. & found
it to be even superior to the ordinary milk
sold in the Colony -
